Diesel has never been a brand to play it safe, and for Fall/Winter 2023, Glenn Martens pushed the limits even further. This season, the Italian powerhouse delivered a collection that was bold, rebellious, and undeniably raw. From distressed denim and oversized silhouettes to metallic fabrics and experimental layering, Diesel continues to redefine the intersection of luxury and streetwear.

Set against a high-energy backdrop, the FW23 show wasn't just about clothing—it was a statement on attitude, youth culture, and the power of reinvention. The Diesel x Durex collaboration further cemented the brand's fearless identity, blending fashion with provocation in a way only Diesel can.

With playful messaging and an unapologetic stance on sex positivity, the collab underscored Diesel's commitment to breaking taboos and embracing freedom. In this issue, we break down the most iconic looks, the behind-the-scenes moments, and the cultural impact of Diesel's FW23 collection. Buckle up—this season is all about pushing forward without looking back.

This season, Diesel redefined streetwear by blending nostalgia with innovation. Raw edges and exaggerated silhouettes challenged conventional proportions, while metallic sheens brought a futuristic edge. The boldness wasn't just in its design but in its attitude—redefining unapologetically bold.

COLO PHON

This magazine was crafted to capture the bold rebellion and fearless spirit of Diesel's Fall/Winter 2023 collection. From concept to creation, this issue is a celebration of unapologetic style and innovative design.

Inspired by Diesel's Fall/Winter 2023 collection, I was drawn to its bold, rebellious identity paired with a touch of mature sexiness. This catalog showcases key looks and textures from the collection, exploring the fearless attitude and innovative designs that Diesel is known for. From oversized denim to metallic fabrics and distressed textures, this season's designs push the boundaries of fashion, creating an unapologetic fusion of streetwear and high fashion.

This book was created in the Winter of Two Thousand and Twenty Four at The Savannah College of Art and Design, Atlanta Campus. It was an assignment created in the Graphic Design class of Two Hundred and Five, Studio 1, under the guidance of Instructor Jeff Hughes. The text of this book is set in Proxima Nova at 10 pt. This book was designed by Pilar Liotta.
